

COME AND LEARN ABOUT OUR AMAZING WATER BUGS

TWO FREE WORKSHOPS THIS NOVEMBER

Australia's waterways under the magnifying glass!

Upper Murrumbidgee Waterwatch, in partnership with the National Waterbug Blitz team, are hosting two FREE workshops for anyone who is keen to learn how to collect and identify waterbugs.

Anyone can join in the workshops – you don't have to be a Waterwatch volunteer. That said, you may wish to apply your new skills by joining Waterwatch staff on a Spring Bug Survey or you may wish to conduct your own survey as part of the broader National Waterbug Blitz. No prior experience is necessary and experts will be on hand to answer all your questions.

Things to bring along on the day:

- BYO lunch – morning/afternoon tea provided
- Hat, sunscreen
- Gumboots or waders (if you wish to learn how to sample for bugs)
- Your smart phone with **The Waterbug App** downloaded to it – Google Play or iTunes App Store

Two FREE workshops are being held in the ACT region:

- Friday 2 November from 10:00am – 3:00pm in Adaminaby at the Community Hall. This will enable all who attend to see and learn about some of our 'high country' bugs.
- Saturday 3 November at Lion's Youth Haven, 244 Kambah Pool Road, Kambah from 10:00am – 3:00pm.

RSVPs needed by 31 October 2018.
For more information contact: Woo O'Reilly on 6207 4426 or waterwatch@act.gov.au

Limited places available, so get in quick!
