

**LISTEN** for splashing  
**LOOK** for carp  
**LOG** your sighting!

Help **WATERWATCH** find  
carp this Spring

#carplove20

Log your carp sightings at:  
[www.feralfishscan.org.au](http://www.feralfishscan.org.au)

Carp are a huge problem in our waterways  
and we need your help!

Anyone can spot carp! Especially when they're  
splashing around in Spring while breeding  
when the water warms to around 20°C.

Recording your carp sightings will help Waterwatch identify  
where carp breed and provide opportunities for controlling them.
